

Black Diamond City Campus Plan

Our once-in-a-lifetime opportunity to secure a location capable of providing the highest level of service for the community

Outgrown and Disconnected

We have outgrown our current facilities, including our municipal court and police station. Our services are currently located in separate facilities.

Your City Services in One Location

At the new City Campus, you will be able to access most of your city services in one building. Whether you want to attend a City Council meeting, apply for a permit or pay a bill, you will be able to do it all in one location. That's not possible today.

Financial Benefits

In 2023 Black Diamond launched a competitive process for proposals.

In exchange for density credits, Oakpointe will provide Black Diamond up to \$8 million in land, design and construction value for the new City Campus.

Black Diamond will own the new City Campus saving nearly \$144,000 annually in rent on facilities we don't own and have outgrown.

This solution will allow us the once-in-a-lifetime opportunity to develop a City Campus, without burdening taxpayers with a significant tax increase.

The new City Campus will create a sense of pride for our community now and in the future. We look forward to sharing more information about our City Campus plan as it evolves.

2025 Target Open Date

Please visit the News & Announcements section on the City of Black Diamond's website for project updates.
