Please attach and reference the following:

1. **Description of Land Use:** Identify the size of the proposal according to the basic unit that generates activity. For example: Restaurant (# of seats); Retail (square footage of retail space); Medical (# of beds/exam rooms); Storage (square footage, # of units); School (# of students); etc. SEE ITE MANUAL
2. **Preliminary Traffic Issues Assessment:** Describe the potential traffic safety and access issues, including access point to the public roadway and surrounding properties. The full assessment of traffic impacts will be completed by the City.
3. **Brief Description of Project:** Provide a brief description of the project, including a general overview and scope of work.
4. **Site Plan:** Site plans must include standard items such as a vicinity map; legend; north arrow; scale (horizontal and vertical); datum; engineer's/land surveyor's stamp (signed and dated); detail sheet(s) including all applicable City Standard Details; "Call Before You Dig" note; general notes and construction notes; developer's name, contact, and contact information; sheet index; and signature approval block (must be shown on each sheet). Information for plans can be found in the City's Engineering Design & Construction Standards, Section 1.14.
5. **Legal Description:** Provide an unabbreviated legal description of the site.

With the above information, the City will assess the need for a Traffic Impact Analysis (TIA). If a TIA is needed, the City will determine the scope and estimated fee. A deposit must be submitted for the estimated TIA before the City will give the City's traffic consultant a Notice to Proceed.
